WHAT HAS BEEN DISCUSSED + PENDING ISSUES

1. Discussion on the procedure for CI/CD pipeline.
2. Should our team be in a Github organization so that each team member can be the owner of the project?

CONCLUSION

- Further specifications about the CI/CD pipeline should be discussed with the teacher.
- Update form the teacher: Our team should not be in a Github organization so that each team member can be the owner of the project. Each student should have the student developer pack on Github and there should be a single owner for this project.
